

The new Touareg

Effective from 01.05.2024

Confident Appearance

The new Touareg is an SUV that meets high expectations and proves this too with a striking and sophisticated design. The wonderfully expressive front section with prominent air intakes and the powerful rear accentuate the sporty presence of the Touareg. Its balanced proportions emphasise its elegance as well as its size, which makes it a comfortable companion on the road.

Distinctive Design

The new Touareg has a red illuminated Volkswagen logo. This is integrated in the new horizontal LED strip of the tail light clusters. This produces a unique graphic both during the day and at night.

Innovision Cockpit

The 12" digital instrument cluster and the 15" screen of the infotainment system form one curved glass surface: the Innovision Cockpit. Operated by touch, gestures or voice control, it displays functions in graphics and animations. Home screen content can be customised and buttons can be programmed freely for favourites and shortcuts.

Expand your Horizons

The electric panoramic tilt/sliding roof is a real eye-catcher. With its generous glass surface, it offers more brightness and passengers a clear view of the sky. Its electric sun blind protects against excessive sunlight. Do you want to enjoy fresh air? If desired, the front half of the roof can be raised or moved completely backwards

Premium Lighting

The HD matrix headlight not only provides better visibility at night but also supports you when driving. More than 19,000 individually controllable LEDs are used for each headlight. This enables your Volkswagen to project markings onto the road, for example, when the high beam is switched on. The HD matrix headlight has a special light animation ready for you.

Twice the drive. Twice the fun

The Touareg eHybrid is a plug-in hybrid that combines an electric motor and a TSI petrol engine. When the battery is sufficiently charged, you start in virtually silent electric mode, producing zero local carbon emissions. If you activate hybrid mode, you combine both drives for maximum system output of 280 kW (380 HP). A special highlight in this mode is the interplay between the navigation system and drive management. When you enter your destination into the navigation system and start route navigation whilst in hybrid mode, the combustion engine and electric motor work in perfect harmony with each other for the entire duration of your journey. The system delivers an output of 340 kW (462 HP). All engines are paired as standard with an eight-speed automatic gearbox and the 4MOTION permanent all-wheel drive system.

¹VRT Bands and rate of Annual Road Tax are valid as of 1st January 2022 and calculated from the base model WLTP values for model year 2024 cars produced from CW35/2023 onwards. All vehicles with TBC are subject to EU type approval and with that were not available at time of going to print.

²The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP). The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO₂ emissions produced. To discover exact values please configure your desired vehicle at volkswagen.ie/build. You can discover more about the WLTP at volkswagen.ie/wltp.

³All prices (Retail, Delivery and ROTR) are recommended by Volkswagen Ireland. €1,795 includes optional Service Plan which can be removed upon request. Maximum delivery charge with Service Plan removed is €1,095.

*Recommended On the Road Price.

Importantly note that the rate at which your vehicle pays Vehicle Registration Tax may increase as a result of your vehicle configuration. For more information, please consult your local Authorised Volkswagen retailer.

In accordance with (EU) 2020/740 ("Tire Labeling Regulation"), please visit volkswagen.ie configurator for details relating to the tyres applicable to said vehicles.

Please note every effort has been made to ensure the contents of this publication (including RRP, CO₂, fuel consumption and technical information) were accurate and up-to-date at the time of going print 1st May 2024. Volkswagen Ireland reserves the right to change specification, prices and withdraw products from sale without notice. Any such alternations will be notified to Volkswagen Retailers at the earliest opportunity. Please consult your local Authorised Volkswagen retailer for the latest product information.
